

Reliable power...
when and where you need it!

Mobile Generators with ERT (Extended Run Tank)

The ERT (Extended Run Tank) line of mobile generators from Wacker Neuson includes the G 25, G 50 and G 70 models. These units provide longer run times at full prime load -- saving money on fuel deliveries and allowing for remote/weekend running of submersible pumps, etc. The ERT generators are 115% fluid contained for use in environmentally sensitive areas. The generators can be mounted on standard Wacker Neuson trailers for easy transport; the tanks are fully baffled for safer and easier towing.

	G 25	G 50	G 70
Fuel tank capacity (in gallons)	135	331	331
Run time at full load (in hours)	72	94	63
Prime output (in kW / kVA)	20/24	38/50	58/72
Operating weight (in pounds with trailer)	4044	7512	7812

Specifications subject to change without notice due to continuous product development.
