

Pallet Forks, EDGE

Pallet forks are vital attachments for any industry where bulky, baled or palletized materials are moved. CEAttachments offers three styles of EDGE Pallet Forks to suit your need and budget! Custom brand your dealer name on all EDGE Fork Frames.

EDGE Standard duty pallet forks are ideal for many types of material handling jobs. Offering great strength along with a great price. Side steps make getting in and out of the cab easy, and the see-through brick guard provides good visibility. Individual tines sold separately.

EDGE Medium duty pallet forks offer the strength and durability that you would expect from an EDGE product, with the convenience of a walk-through style frame, allowing easier access to and from the cab. Includes spill guard. Individual tines sold separately. Recommended for machines with cab enclosures.

EDGE Heavy duty pallet forks are designed for tough applications and high horsepower skid steers. Side steps make getting in and out of the cab easy and the standard see-through spill guard provides excellent visibility. Individual tines sold separately.
